

## Career and Technical Education Instructional Program Information

The Career and Technical Education program is designed to prepare individuals for jobs as technicians in the automotive fields. The program consists of a core curriculum and Automotive Technologies I and II. The occupational standards for each are aligned with National Automotive Technicians Education Foundation (NATEF) and Automotive Service Excellence (ASE) standards. The program is designed and delivered as a coherent sequence of experiences using technical instruction, academic foundations, experiential learning, supervised occupational experience and leadership and personal development through the Career and Technical Student Organization, SkillsUSA. The Automotive Technologies includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension,
